About
An OASAS-licensed treatment facility specializing in chemical dependency treatment, New Life Manor’s staff help men in recovery from drug and alcohol addiction on their path to recovery.

Under the guidance of certified professionals, participants at this 24-bed halfway house learn the benefits of sobriety, how to identify triggers that lead to relapse, and develop a treatment plan that works. Participants get the most out of treatment by developing the skills to succeed in personal and professional situations.

What We Offer
Residents build a stable, long-term personal program of recovery to support their transition from intensive treatment to sober independent living. Services include:

- A smoke-free facility
- 24-hour staffing
- Medication management
- Residents learn budgeting skills and meal prep
- Community services through volunteer work
- Sobriety supported by RECAP’s TRUST Center and other area treatment facilities

A Fresh Start & a New Direction for Life
Residents are able to re-start a life that was put on hold because of addiction. They can explore vocational opportunities, develop healthy leisure activities and peer relationships.

Highly-trained staff, including counselors and a residence manager, make up the treatment team.

Community Partnerships
