Our mission is to mobilize and coordinate public and private resources to address the basic needs of low-income people and assist them in attaining the skills, knowledge, motivation and opportunities needed to become economically self-sufficient.

About

An OASAS-licensed treatment facility specializing in chemical dependency treatment, the TRUST Center’s staff helps clients in recovery from drug and alcohol addiction on their path to recovery.

Under the guidance of certified professionals, participants learn the benefits of sobriety, how to identify triggers that lead to relapse, and develop a treatment plan that works. Participants get the most out of treatment by developing the skills to succeed in personal and professional situations.
